EXPERIENCE

SPINS LLC, Colorado Springs, CO **October 2022-Present**
Provider of retail consumer insights for the natural/specialty products industry through creation of tools that transform raw data into intelligent business solutions

Senior Business Intelligence Engineer **December 2024-Present**

- Refactor report deployment code using Google Pub/Sub to programmatically execute cloud function reducing deployment time from 6 hours to 20 minutes
- Lead ongoing training of analytics team on effective use of SQL and Python to create and deploy reports
- Collaborate with key stakeholders to define project KPIs and deliver on OKRs

Business Intelligence Engineer **December 2022-December 2024**

- Developed and maintained report deployment process from data lake to BigQuery to Power BI
- Scaled Sprouts (SPINS' largest retail client) vendor report from 100 to 955 clients through Python code refactor
- Created a demographic data dashboard to optimize clients' ability to target their customer base

Data Science Intern **October 2022-December 2022**

- Supported internal Finance, Investors, and HR teams with automated ETL and reporting
- Developed and configured data pipelines for migration into Google BigQuery
- Created data visualization dashboards using Microsoft Power BI

ITF Entertainment, Colorado Springs, CO **December 2020-October 2022**
Self-funded LLC focused on instrumental license sales and audio production

Owner, Audio Engineer

- Created instrumentals and sold instrumental licenses to independent artists
- Learned how to precisely mix and master vocals and instrumentals
- Scaled one artist to over 1.3 million streams on Spotify

Fivetran, Oakland, CA **June 2019-December 2020**
High-growth SaaS startup that provides an automated data migration platform to power the modern data stack

Project Manager, Product

- Managed core product roadmap leveraging analytics, internal sales feedback and customer feedback to drive decision-making
- Built and maintained relationships with 50+ partners, such as Oracle, LinkedIn, X (Twitter), and Zendesk
- Worked with engineering team leads and product managers to resolve API connector issues

Leeds School of Business, Department of Business Analytics, Boulder, CO **August 2017-May 2018**
Business Analytics Teaching Assistant

- Worked with students to reinforce understanding of data science concepts learned in class
- Scheduled and organized office hours to prepare students for exams and projects
- Graded exams and projects

EDUCATION

University of Colorado at Boulder – Leeds School of Business **May 2018**

Bachelor of Science in Business Administration with an emphasis in Information Management

1st place in Engineering Design Expo.

2nd place in CU Hackathon: Alteryx Challenge

- **Relevant Projects:** Created a predictive model to determine housing prices in Ames, IA. Created a predictive model to determine who lives/dies on the Titanic. Transformation of Microsoft server logs into meaningful consumer data using filter tools and regular expressions within Alteryx.
